Informed Consent to Treatment

I consent to acupuncture and other procedures associated with Traditional Chinese medicine by Kim Perrone, Jessica Correa and Cassandra Romo. I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I have been informed that acupuncture is a safe method of treatment, but it may have side effects, including bruising, numbness, or tingling near the needling sites that may last a few days, dizziness, or fainting. Bruising is a common side effect of cupping. Unusual risks of acupuncture may include spontaneous miscarriage, nerve damage, organ puncture, or lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile, single-use needles and maintains a clean, safe environment. Burns and/or scarring are a potential risk of moxibustion. I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements (white are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and/or tingling of the tongue. I will notify the clinic if I am or become pregnant. I do not expect Kim Perrone, Jessica Correa or Cassandra Romo to be able to anticipate and explain all possible risks and complications of treatment and I wish to rely on them to exercise judgment using the course of treatment that they believe at the time and based upon the facts then known, is in my best interest. I understand the clinical and administrative staff may review my medical records and lab reports, but my records will be kept confidential and will not be released without my written consent. I acknowledge and specifically state that I understand that treatment with acupuncture (like treatment by other health services) cannot and does not guarantee specific results or cures. By voluntarily signing below I show that I have read, or have had read to me, this consent to treatment, and have been told about the risks for acupuncture and other procedures, and have had the opportunity to ask questions. I intend this consent to cover the entire course of treatment of my present condition(s) for which I seek treatment.
